

Vote **1** independent on 23 March State election

**Larissa
PENN**

**LOOKING
AFTER
LOCAL**

**Your independent
candidate for
Willoughby 2019**

Our community. Stop new toll tunnels
Our health. Maintain healthy communities
Our environment. Take action on climate change
Our future. Develop better planning

It's time for a fresh start for Willoughby and it's time to plan a better future for NSW.

Dear resident,

I'd like to introduce myself as your local independent choice for the electorate of Willoughby in this very important state election on March 23.

I'm a mother of three living in Naremburn and have lived most of my life in the electorate of Willoughby. I have been heavily involved in community work from community care, to sports, schools and our green spaces. State Government affects the quality of our lives and communities.

I believe local matters and concerns need to be respected. I have qualifications in Management and Biotechnology with substantial management

experience and expertise in assessing quality and best practice in the areas of food safety, environment and health.

In working with community groups over the past year to assess the planned tunnels and development projects it has become clear to me that valid concerns for our families, homes and environment are not being listened to.

I stand as an independent free from corporate donors and party politics to focus on what's best for Willoughby.

Best regards,
Larissa Penn

Looking after local by representing...

Our community

- Stop the Tunnels; no toxic toll roads through our suburbs
- Ensure space and road safety for our kids
- Protect and grow local businesses

**Stop new
toll tunnels**

Our health

- No digging up of old tip sites in residential areas i.e. Flat Rock
- Filter existing tunnel stacks and release local air quality data
- Improve connectedness and mental health

**Maintain healthy
communities**

Our environment

- Ban single use plastic bags and protect Middle Harbour from tunnel dredging
- More renewables; no new coal mines; protect our green spaces & bushland
- Address congestion via sustainable transport links

**Take action on
climate change**

Our future

- Stop State Significant Developments overriding local planning rules
- Restore Environment Protection Authority (EPA) Independence
- Government transparency, accountability and real consultation in planning

**Develop better
planning**
